## About the Residential Care Sector

Residential care refers to treatment and care provided to adults or children who stay in a residential setting rather than in their own home or family home. Residential care can be short term or long term and in some cases can be permanent. The level and type of care varies depending on the reason for entering care (such as child protection through Children's Aid) and the treatment needs of the individual. The residential care sector serves a diverse range of individuals through partnership with child welfare, development services and mental health agencies, among others.

## About OARTY

The Ontario Association of Residences Treating Youth (OARTY) represents private operators providing residential care and treatment (both for-profit and not-for-profit) to the child welfare, developmental services, and complex special needs sectors in Ontario. Through our members, OARTY provides:

- Services to over 2,700 children, youth and young adults annually
- Over 460 foster families in foster and treatment foster homes provincially
- A staffing component of over 2,500 individuals

*Data based on OARTY membership statistics collected from the 2015 calendar year.*

A brief overview of the population of clients served by OARTY member agencies follows:

- 15% of all our clients have no speech
- 56% of our clients had been either physically or sexually abused and 20% have experienced both physical and sexual abuse (these stats are based on confirmed abuse history)
- 52% of our clients lived most of their lives in conditions of poverty and deprivation
- 55% of all clients served by OARTY member agencies have complex lifetime needs and neurological disorders
- 63% of our clients have a diagnosed intellectual deficit from borderline to severe, with 27% of all clients diagnosed in the moderate to severe range of intellectual deficit
- 58% of our clients have a confirmed psychiatric diagnosis and 2/3<sup>rds</sup> of clients with a psychiatric disorder have two or more co-morbid disorders
- 14% of our clients are adults, the vast majority of whom had complex developmental disorders, such as autism, medically fragile, quadriplegia, etc.

## About Our Members

Our members provide residential care and treatment to children, youth and young adults through group homes, foster homes, assisted living, day treatment or a combination of services. OARTY members meet a wide variety of treatment needs, often addressing multiple needs including but not limited to: psychiatric disorders, mental health, trauma from abuse/neglect, substance abuse, developmental challenges, and mild to severe medical conditions. OARTY member homes are places of healing, family and growth for thousands of young Ontarians in need of residential care and treatment.

## OARTY Official Research Sponsor

### OARTY's Research

OARTY conducts ongoing research using reliable, evidence-based outcomes measures. OARTY is the premier source of research in the residential care sector. OARTY research projects include:

#### **Partners in Care (PIC) Biennial Research Reports**

These reports provide a detailed profile of those in the care of OARTY member agencies, helping to understand the successes and challenges for young Ontarians in care. The focus for the biennial PIC research projects is chosen by our research committee and the research is conducted by our research consultant with oversight from the committee. The last several years have focused on evaluating the outcomes achieved by OARTY member programs.

#### **OARTY Member Agency Annual Statistics Collection**

Provides an overview of the status of programs in place, clients served and services provided within the prior calendar year. Results are published in OARTY's Annual Report.

#### **Surveys and "On the Spot" Research**

In order to respond quickly to questions regarding those in residential care, surveys and/or a review of existing data (through the Integrated Residential Information System or the Partners in Care data repository) are conducted at various times throughout the year.

OARTY's research is used extensively in advocacy work on behalf of children, youth and young adults in the child welfare and residential care, and to provide input into relevant government policy/stakeholder initiatives.

### **OARTY Official Research Sponsor (\$7,500) – Benefits**

You can support the valuable research OARTY conducts by becoming OARTY's Official Research Sponsor. All research conducted over the course of the year will be recognized as sponsored by your company, highlighting your support for the children, youth and young adults in residential care. Recognition will be provided during the year of sponsorship by:
